FARMER'S WIFE ALMOST A WRECK

Restored to Health by Lydia
E. Pinkham's Vegetable
Compound—Her
Own Story.

Westwood, Md.—"I am a farmer's wife and do most of my own work when I am able. I had nervous spells, female weakness and terrible bearing down pains every month. I also suffered much with my right side. The pain started in my back and extended around my right side, and the doctor told me it was organic inflammation. I was sick every three weeks and had to stay in bed from two to four days.

"It is with great pleasure I tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I have followed your directions as near as possible, and feel much better than I have felt for years. When I wrote you before I was almost a wreck. You can publish this letter if you like. It may help to strengthen the faith of some poor suffering woman."—Mrs. JOHN F. RICHARDS, Westwood, Maryland.

Women who suffer from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

For a Better Missouri

A plea is being sent out from the office of William H. Bloomer at St. Louis for the organization of County Commercial Clubs, as agencies for the betterment of rural communities. He is sending out a book under the title above which gives some figures taken from the census reports, etc. to show that Missouri is not making the progress in the rank of states that it should. One thing shown is that in 1900 it stood fourth in the rank of state in regards to population while in 1910 it stood sixth in this respect. The indications are that the rural parts of the country are not advancing as they should and the organization of the County Commercial Clubs is for the introduction and development of the best social institutions, the establishment of modern rural vocational schools and increased agricultural efficiency. Mr. Bloomer can be communicated with through his office in the eighth floor of the National Bank of Commerce Building in St. Louis.

The Moberly water train has been making daily trips to and from the Chariton and last week, water was obtained from this source to work the Northern Central coal mines at Huntsville which were compelled to close down Jan. 14 because of lack of water. They managed to get enough water for the next day to reopen the mines and continue hoisting coal. Wells are empty and the long drought is putting people to much inconvenience and great expense.
